Cheeky Chompers was founded by two Scottish mums who were looking to create an attached teething solution for their own dribbly babies. This simple idea, beautifully executed, has impressed parents and retailers alike and is now selling successfully around the world.

Cheeky Chompers continue to add their cheeky innovative twist to every day essentials to help make parents lives easier.

Cheeky Chompers products are:

- **Stylish.** It's about making your little one look fabulous. Standing out from the crowd.
- **Quality.** It's about something that costs a bit more, but lasts a lot longer. It's about knowing baby is safe in our hands. It's about little touches that delight.
- **Helpful.** It's about being practical and making life simpler.
- **Innovative.** That "I wish I'd thought of that" moment. Cheeky Chompers products are just a tiny bit life-changing, by effectively solving little problems for little people.
