S O F A L A N G E

Currently the changing mat, but now there is SOFALANGE !

The search for THE perfect changing mat is over, Sofalange is here ! A revolutionary diaper changing pad that will enhance this important bonding moment between parent and baby, thanks to a unique concept: the inclination keeps the baby's head at an angle to avoid reflux, and enables the baby to look directly at its parents instead of looking at the ceiling. This contact is an important part of the bonding experience and soothes the baby.

The side tilts keep the baby steady, avoiding all accidental falls.
